Dear Mr. Oliveri:

I wanted to let you know what a pleasure it was to work with you during the recent design and development of the physician office space at Trinity Outpatient Center. I found you very open to our suggestions and requests as well as ready to provide great ideas to solve problem areas so our needs would fit well into the existing space.

Dr. Vera, Dr. Crall, and their staff join me in thanking you for an excellent design which is both functional and beautiful. In particular, the front counter area is so customer friendly with its curved lines, and the exam rooms and offices are efficient and pleasant to be in.

Thank you, again. I hope we will have other opportunities to work with you in the future.

Sincerely,

Nancy Burden  
Director
