Re: Joseph Oliveri
Principal Architect
Oliveri Architects

To Whom It May Concern:

We recently retained the services of Joseph Oliveri to redevelop our property and redesign one of our 150 Sonny's Bar B Q Restaurants located in Palm Harbor, Florida.

Joe and his design and construction team members presented us with a variety of solutions to many complex issues. We found Mr. Oliveri and his firm to be exceptionally professional and extremely innovative in design and construction.

The challenge we posed to Mr. Oliveri was to design our project so that we could be rebuilt and reopened for business in 90 days and that goal was accomplished and within budget. The updated design of our facility has been extremely well received by our patrons and our sales have exceeded our projected goals. It is our belief that the curb appeal of the exterior design, coupled with the warm and well-scaled interior has played a major role in our increased sales.

We would most highly recommend Joseph Oliveri and his Architectural firm.

A handwritten signature in blue ink, appearing to read "Edward M. Titen", is written over the typed name and title.
